

911 System Set for Emergency

Wave 23 Feb 1984

When Heber City residents begin receiving their Mountain Bell telephone directories in the mail next week, they will notice a new addition to the Emergency Numbers page in the front of the book.

The new addition is 911 service which is now available to Heber Valley residents with a "654" telephone prefix.

The 911 number is a fast, easy way to get help for different kinds of emergencies. This one number puts you in touch with police and fire departments, as well as ambulance services for telephone customers living in Heber, Midway, Charleston, Daniels, Wallburg, Center Creek and Lake Creek.

When using the new telephone directory, Mountain Bell Public Relations Manager Ken Hill agency calls, continue to use the numbers listed in your directory," Hill recommends.

When Heber Valley customers receive their telephone bills this month, a sticker will be enclosed which can be placed on or near the telephone as a reminder to use the 911 service, according to Hill.

The new 911 system was installed because of a need to coordinate the emergency activities of the county.

Sheriff Mike Spanos has been pushing the consolidation of the emergency calls, so the proper information can be dispatched. Wasatch County recently spent hundreds of dollars to equip the Sheriff's department with a central dispatch system.

The dispatch system directs the local law enforcement efforts, the fire department efforts, and the emergency services. Through the dispatching of the 911 system, the emergency services will be provided for faster and more accurately.
